CONFERENCE

Five Days packed of drones

Our DroneMasters stage, which is positioned right between exhibition area and race track, provides a 360-degree panoramic view of the drone world. From business and science to entertainment and sport:

Meet the leading minds from around the world, listen to how they discuss the latest trends and innovations and predict how drones are likely to change our living and working environment in the years to come.

The conference connects drone professionals from all backgrounds - manufacturers, solution providers and users, service companies, investors, creative minds and forward thinkers - and allows you to network with them.
